Subject: message from Commandant

First, we would like to thank all the individuals who donated food items and phone cards to make Doolie Day In a successful event. We are grateful for the overwhelming response to the situation and we thank you for the support. All cadets, including those with Influenza-like illness, were given an opportunity to make phone calls on Saturday.

On Monday morning, we completed the March Out to Jack's Valley. Basic Cadets are in very good spirits. The majority of cadets who were removed from training due to illness are being evaluated by medical doctors today. In fact, some are returning to training.

Basic cadets with Influenza-like illness are being treated and cared for. All are expected to make a full recovery and successfully complete basic cadet training. I have personally visited these basics and have my senior staff making personal visits on a regular basis.

Rest assured that your sons' and/or daughters' health and wellness are a priority here at the Academy.

Thanks,

Brig. Gen. Samuel Cox
Commandant of Cadets
